

Your name _____ Email address/Phone _____

Organization/Business/Affiliation _____

Leadership Cayuga Alumni? ____ no ____ yes - Class of _____

Your Project Idea: *What do you hope will be achieved? Goal? Outcome? (E.g: Based on research, the team will be able to make recommendations about managing the crow problem in Auburn.)*

Project Timeline: *The team has from early January until May 3 to complete the project. Is this a reasonable timeframe for your idea, and if not, is there a significant component within the greater concept that could be addressed?*

Project Background: *To the best of your knowledge, is this a new initiative? Has it been explored by others? Please explain.*

Further help: *If this project is selected, would you be willing to meet with the team in early January to answer questions they may have before they begin work? Are there other things you can offer the team? (Meeting space at your business, technical assistance or other resources.)*
